TRIAC ST - Design meets experience

The TRIAC ST is primarily used for welding and plastic fabrication. During its development, a deliberate choice was made to do without extra technical features. Instead it is distinguished by its robust design, reliability, versatility, and user-friendly features, like its predecessor the TRIAC S. A prominent feature is the two-component handle, which is not only attractive, but also gives the user perfect grip. The low weight—of less than one kilogram (2.2 lbs)—ensures perfect weight balance.

TRIAC AT: Robust and intelligent.

The TRIAC AT is an intelligent hot-air hand tool—for welding and shrinking plastics—that is suitable for on-site use. It is designed for the needs of even the most demanding professional. Every tool undergoes stringent quality checks prior to leaving the factory in Switzerland. This high-quality hot-air hand tool is equipped for all situations. Its universal areas of application are virtually unlimited. The TRIAC AT will continue to prove its merit in any weather condition and is just as effective outside as it is indoors – all during continuous operation.

Hot-air hand tool

TRIAC ST

- Suitable for the work site
- Functional design: two-component handle grip and optimum center of gravity ensure good ergonomics
- Quick clean air filters
- Automatic carbon stop and heating element protection provide automatic protective measures

ELECTRON ST – Strong, compact and handy

The new ELECTRON ST is a real powerhouse among Leister's hand tools. The appearance of this tool has been modeled after the new TRIAC range. For the user, this means improved ergonomics and, as a result, the ability to work in more comfort. Existing ELECTRON nozzles fit the new model.

Heating shrink tubes/sleeves is just one of many applications for which the ELECTRON ST can be used.

Hot-air hand tool

ELECTRON ST

- Suitable for construction sites
- Leister's most powerful hand tool
- Easy-clean air filter
- Carbon stop and heating element protection provide automatic protective measures
- Sturdy tool case supplied

HOT JET S: Small and powerful.

As Leister's most compact hot-air hand tool, the light weight of the 1.3 lb HOT JET S (including cord and slim handle), ensures high-powered, fatigue-free welding.

HOT JET S is especially suited for precise work.

Hot-air hand tool

HOT JET S

- The smallest Leister hot-air hand tool
- Stepless, electronically controlled temperature
- Stepless, electronically controlled air flow
- Low noise
- Flexible, integrated tool stand

GHIBLI AW: Robust and ergonomic.

The GHIBLI AW is the robust and ergonomic heat gun used for shrink applications in cable manufacturing, heating and forming in the automobile industry, lap welding of truck sheeting and for deburring plastic parts. Thanks to the easy-to-grip, two-component frame, the GHIBLI AW fits perfectly in the hand. Temperature and air volume easily can be adjusted with the proven and intuitive "e-Drive" operating unit. The stand—included in the scope of delivery—

and the practical device suspension make working easier. The air filters can be readily removed and cleaned. And of course, all of the nozzles from its predecessor fit the new GHIBLI AW.

Shrink applications in cable manufacturing – ideal with the GHIBLI AW.

Heat gun

GHIBLI AW

- Ergonomic heat gun
- Digital temperature control
- Five-stage air volume control
- "e-Drive" operating unit for optimum process control
- 100% Swiss made

GHIBLI: "The hot-air gun".

GHIBLI, derived from a hot desert wind, certainly lives up to its name. Thanks to its two-step airflow switching and steplessly adjustable temperature, the GHIBLI can be used for the most diverse applications.

Shrinking cable connections with the GHIBLI.

Hot-air hand tool

GHIBLI

- Universal tool for welding and shrinking
- Welding results independent of voltage fluctuations and ambient temperature
- Two-step selectable airflow

HOTWIND: The new dimension.

Weighing just 6.6 lbs, the HOTWIND can be used either as an integrated or bench-top device. The high maximum temperature—1,472 °F (800°C)—means that the HOTWIND can be used in a variety of ways.

The HOTWIND hot air blower is perfectly-suited for drying and baking of print onto plastic components.

Hot-air hand tool

HOTWIND PREMIUM / SYSTEM

- Ideal for warming, heating, forming and drying
- Stepless adjustment of the heater and blower
- Integrated device and heating element protection
- Extremely smooth running
- Ideal for 24/7 operation

Accessories HOTWIND PREMIUM / SYSTEM

FORTE S3: Flameless shrinking.

The most powerful hot-air hand tool from Leister. The FORTE S3 is extremely well-suited for flameless shrinking of pallets and bulk goods.

Flameless shrink-wrapping of pallets and bulk goods with the FORTE S3.

Hot-air hand tool

FORTE S3

- Powerful pallet shrink-wrapping
- Uniform shrinkage
- May be used in confined spaces
- Integrated tool stand

AIRSTREAM ST: Quiet and efficient air supply unit.

Plug-in the AIRSTREAM ST for a constant, quiet supply of clean, dry, air. Need to work with two hand tools in parallel? No problem, thanks to the simultaneous power and air supply, you can connect up to two hand tools in parallel. The AIRSTREAM includes a handle and integrated tool tray, and casters (optional) for easy mobility. The AIRSTREAM ST is a highly practical solution!

AIRSTREAM ST, the quiet air supply unit.

Blower

AIRSTREAM ST

- Quiet operation
- Cooldown mode
- Low energy consumption
- Two hand tools can be connected
- Compatible with WELDING PEN, DIODE and LABOR
- Flow meter
- Brushless technology

159.535 Caster set

159.481 Air hose connection set

Easy parallel operation.

A reliable companion.

ROBUST: The powerhouse.

Versatile and operable at high ambient temperatures of up to 140 °F. Despite its small size, the ROBUST is a real powerhouse. This blower can supply air for up to three hot-air hand tools simultaneously.

ROBUST blower, serving as the external air supply for the WELDING PEN.

Blower

ROBUST

- High-performance, compact design
- Sound-suppression
- Can be integrated at any position
- Can be used as an external air supply to 1 WELDING PEN R or up to max. 3 DIODE S/ PID or max. 3 LABOR S (with 107.281 hose adapter)

WELDING PEN: Slim and flexible.

The WELDING PEN is a hot-air hand tool optimized for draw welding. Due to its slim design and swiveling external air supply, the Welding Pen makes hard work easy.

WELDING PEN R, combined with angle adapters, make welding possible even in very tight spaces.

External air hand tool

WELDING PEN R / WELDING PEN S

- Digital temperature display (WELDING PEN R)

General accessories ≥ 34/35

DIODE PID / S: The powerful pair.

There are two options for high-quality work: The closed-loop DIODE PID provides the perfect welding temperature at all times. The DIODE S easily puts you in control with a manual temperature knob.

Convenient wire welding using the powerful and lightweight DIODE PID.

External air hand tool

DIODE PID / DIODE S

- Operated with MINOR or ROBUST blower, AIRSTREAM ST or with compressed air
- Digitally-controlled and displayed temperatures (DIODE PID)
- Cooled heating element tube
- Suitable for field applications when used in combination with a MINOR blower

Hand tool and blower
